J&K, India

I am an Energetic, Versatile, Technical Team Leader with experience of 8+ years. My array of experience gives me an edge in understanding the broader picture of any project. I understand the WHAT, WHY and WHEN of a developer's mind along with the Vision of the Product. I strongly believe that Harmony between these two aspects brings out the best of any Product Development Life Cycle and I feel I have the ability to be the "Harmonizer".

SKILLS

- Game Engines and IDE** - Unity, Android Studio, Visual Studio, Rider, VS Code
- Softwares** - Discord, Sourcetree, Slack, Github Desktop
- Languages** - C, C++, Java, C#, VB.NET
- Tools** - Jira, Gitlab, Trello, Asana
- Plugins** - Firebase, Photon, Playfab, Facebook SDK, Google Play Games SDK
- Dev Aspects** - Engine Design, User Interface, Editor Tools, Multiplayer
- Techniques** - OOPS, S.O.L.I.D, Asynchronous / Multi-threaded / Parallel programming paradigms, Abstraction and Extension, RESTful API's, Dependency Injection

PROFESSIONAL EXPERIENCE

Technical Team Lead – Phaser, Unity

Ardent Info, Chandigarh, India

(Sep 21 – Feb 25) (3yrs -6mo)

Rule of 3

- Oversee development, Monitor Speed and Efficiency of game based on Phaser.JS Technology
